

Pelagian Dive Yacht

"Muck heaven, a window to a new world. But don't let that fool you, the reefs are amazing! On *Pelagian*, the enthusiasm for the big and tiny brought us to a new level of appreciation for diving. What a week!"

— Brian and Deena Jones

The *Pelagian* is one of the world's most luxurious dive live-aboards. Based at Wakatobi Dive Resort, this 36 meter/115-foot yacht cruises through the Tukang Besi archipelago and the southern coast of Buton Island, providing exclusive access to a diverse range of dive sites that includes towering undersea pinnacles, and coral-covered walls.

The yacht accommodates 10 guests in five spacious cabins, each with en suite bathrooms and showers, dressing areas and side-by-side berths or walk-around queen-sized beds. The *Pelagian* chefs create a menu worthy of a five-star beachside restaurant, served against a stunning backdrop of sea and sky. Sheltered and open lounge areas near the bow and on the top deck are ideal for reading or quiet relaxation. Dive briefings are conducted on a shaded aft deck, and there is a climate-controlled camera room/workshop with ample counter space and charging capacity to support numerous photographers.

With a full-time crew of 12, *Pelagian* delivers the highest levels of personal attention, including a dedicated cruise director and dive experience managers. Diving is conducted from custom-fabricated 18-foot rigid inflatables. The *Pelagian* staff places gear aboard these inflatables at the start of the trip, and divers need not deal with their equipment thereafter.

A typical diving day provides four diving opportunities including regular night dives. Over the course of a week-long cruise, divers can expect to log as many as 25 dives.

Clockwise from top: Coral-covered walls are abundant on many of the dive sites *Pelagian* visits; mating mandarinfish at Magic Pier; *Pelagian* dive yacht.
