

## Wakatobi Resort

With miles of pristine coral reefs and dramatic underwater walls encompassed within a private marine preserve, **Wakatobi Resort** is one of the world's premier dive and snorkel destinations.

Set on a remote island in central Indonesia, but easily reached by direct charter flights to a private airfield, the resort's 28 seaside bungalows and villas create an idyllic setting for watersports and relaxation.

Directly in front of the resort is the House Reef, which has been named the world's best shore dive. A fleet of custom-built dive boats provide daily access to more than 40 additional sites, and the *Pelagian* dive yacht visits a broader

range of sites within the Wakatobi National Park.

Kayaking and kitesurfing are also popular activities at the resort, and the full-service kiting center caters to both novices and experts. On land, guests enjoy concierge-level personal service and gourmet meals served in an open-air oceanfront setting.
